We are continuously improving the CSR strategy by virtue of meeting all applicable legislation, boosting our performance and informing our Staff to be mindful of the effect of their actions.

Conflict of interest

What is conflict of interest

A conflict of interest occurs when a Staff Member's private interests interfere, or appear to interfere, with the interests of a company in general. A conflict of interest includes the existence of any circumstances that would lead a reasonable person to question whether he or she is acting in the company's best interests or his/her own.

Conflict of interest may not be breach by itself unless you make other people aware of it and the decision is made that it imposes no harm to the company.

Examples of conflict of interest

- ✓ Having any direct or indirect business relationship (employment, consultancy, shareholding) with competitor, supplier, contractor of VISEVEN (applicable to family members as well);
- ✓ Being a manager or reporting to a family member, having family member under direct supervision;
- ✓ Having gains or potential gains from certain company transaction.

Conflict of interest

Acting in company interest

Private lives and personal interests are deeply respected. However, one should, foremost, avoid conflict of private and business interests, not make it happen in the first place. VISEVEN's Staff Members must make decisions and take actions that are in the best interests of VISEVEN. Staff must avoid any relationship or activity that might impair, or even appear to impair, the ability to make objective and fair decisions when performing their jobs. All staff should make objective and fair decision that, foremost, support company interest. If having conflict of interest (personal, family interests) one should always act in VISEVEN interest and no other interests should impact objective and fair decision making process. Staff must never use company property or information for personal gain or personally take any opportunity that is discovered through the cooperation with the company.

Secondary employment

Secondary employment is being employed by another company while being an Staff Member of VISEVEN. Secondary employment is allowed if you cooperate with VISEVEN as a freelancer or on a part-time basis or if this employment is agreed with your manager. It should not breach anti-competition rules. One cannot combine full-time employment in VISEVEN with full-time employment in another company. One cannot combine any employment in VISEVEN with any employment at our competitors, customers or other life sciences companies.

Conflict of interest

Reporting conflict of interest

If you have conflict of interests – you should report it to your manager immediately. If you cannot make or participate in objective decision making due to conflict of interest – you should inform your manager as well. Any conflicts of interests related to hiring, promotion, resignation and other employment matters should be escalated to your HR Business Partner. The relevant manager or HR Business Partner should determine if the situation is acceptable, can be adequately mitigated, or must be avoided. Complicated cases may be of discussion by the management board.

Non-competition

No staff member shall provide or receive information to/from a competitor, or any third party related to a competitor. The exclusion can be if legal counsel will consider such transit of information as non-violating antitrust laws nor create a reasonable basis for inferring such a violation. This allows obtaining competitive information from independent third-party sources who are not acting for a competitor. Staff Members are prohibited to have any proprietary relationship with competitors while they are employed and certain time after employment or equivalent relations with VISEVEN.

Anti-corruption

“Bribery” or “Corruption” includes, but is not limited to, promising, granting, requesting or receiving of benefits to/from another person with the aim of influencing (or being influenced) to gain specific advantage in improper, hidden way. It is the offer, promise, giving or demand of acceptance of this advantage as an inducement for an action which is illegal, unethical or breaches the trust.

WISEVEN has zero tolerance to corruption and complies with anti-corruption and anti-bribery laws, generally recognized anti-corruption principles, regional acts and best business practices, such as UN Anti Bribery Convention, UN Convention Against Corruption, OECD Anti-Bribery Convention as well as international laws and other relevant regulations.

It is strongly prohibited to participate in any corruption activities such as:

- ✓ offering, authorizing, committing or providing anything of value, either directly or indirectly, to or for a government official or to or for a business person, in an attempt to: 1) sway official action; 2) win business or 3) get an improper advantage;
- ✓ any facilitation payments being made in the context of any company`s business;
- ✓ gifts, hospitality and entertainment that are given, offered or promised to be given to receive anything of value for the purpose of improperly influencing any decisions concerning the third parties and/or company, its Personnel, independently of the fact, such action made between the company`s personnel or intended to third parties` representatives;
- ✓ grants and donations that are given to receive, or are to be perceived to receive, any tangible consideration in return;

Anti-corruption

- ✓ sponsorship that is used (or perceived to be used) to receive an improper commercial advantage in return;
- ✓ political contributions made with the expectation of direct or immediate return for the company, its Personnel or third parties;
- ✓ lobbying misused for any corrupt or illegal purposes, or to improperly influence any decision;
- ✓ other activities implied herein.

WISEVEN and its Staff are not allowed to make or receive direct or indirect offer, payment, solicitation, or bribes in any form. We refrain from any misleading or deceptive accounting or financial reporting practices and ensure documented evidence on the same by financial audit carried by a Big4 company. We also expect strong ethical standards from those acting on our behalf. Any Staff Member found to be involved in any kind of corrupt practices is likely to be immediately dismissed and may be prosecuted in case they have committed a criminal act.

Gifts, Entertainment and Hospitality

Gifts, entertainment and hospitality include the receipt or offer of gifts, meals or tokens of appreciation and gratitude, or invitations to events or other social gatherings, in connection with matters related to our business.

Gifts, hospitality and entertainment should not be given, offered or promised to be given to receive anything of value for the purpose of improperly influencing any decisions concerning the third party and/or company.

Anti-corruption

These activities are acceptable provided they fall within reasonable bounds of value and occurrence, are modest, reasonable, infrequent. If monetary equivalent of the gift exceeds 100\$ - the gift should be reported to the legal council.

To evaluate what is acceptable one can use the questioning algorithm:

- ✓ In terms of intent: what is the intent - is it to build a relationship or is it something else?
- ✓ In terms of source: how would you look if these details were on the front of a newspaper?
- ✓ In terms of change: what if the situation was reversed - would there be a double standard?

If you find it difficult to answer one of the above questions, there may be a risk which could potentially damage company's reputation and business. The action could also be unlawful. If in doubt, Staff Member should contact their manager, local director or a member of the legal teams.

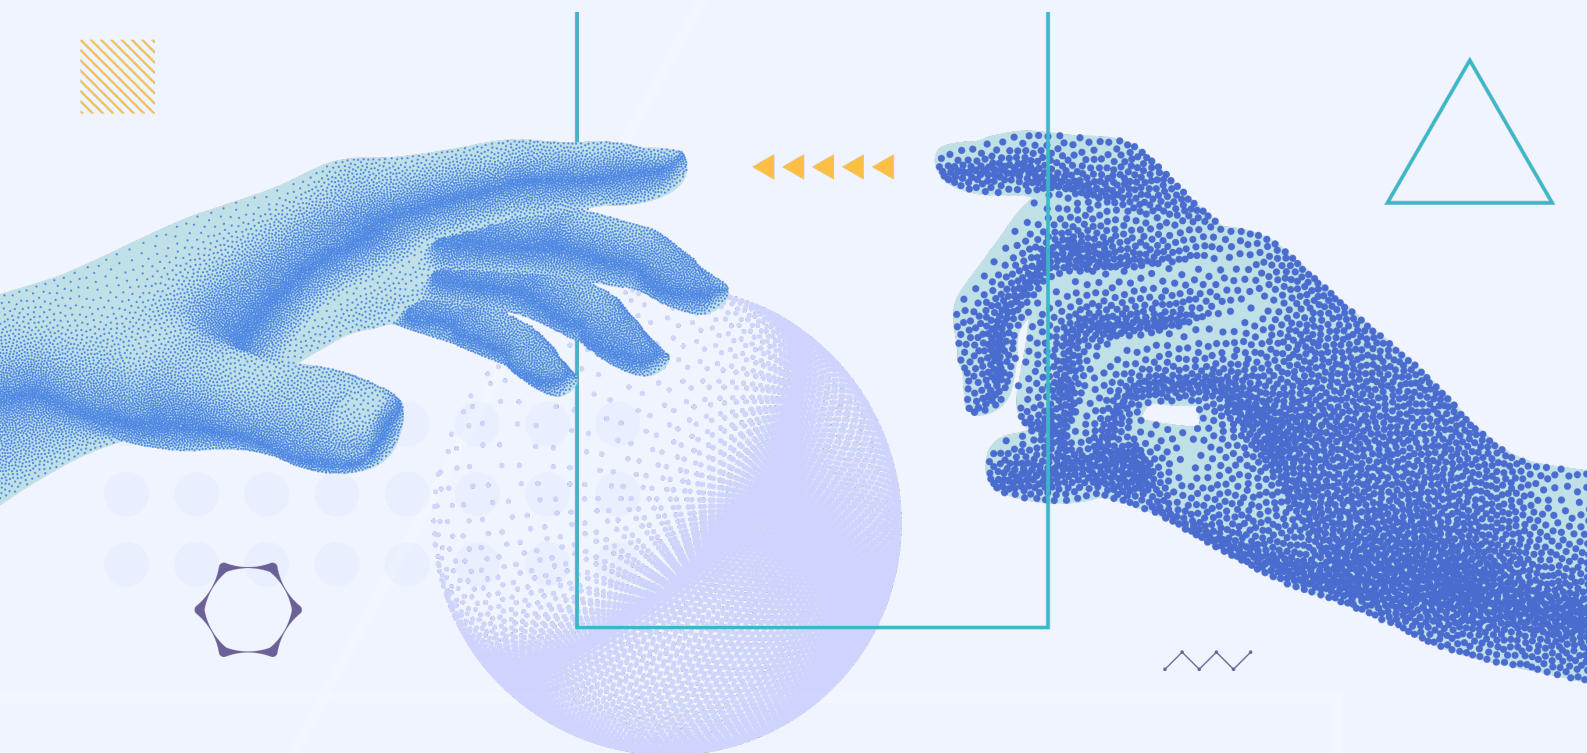

Anti-corruption

Facilitation Payments

WISEVEN makes no distinction between facilitation payments and bribes — regardless of size or local cultural expectations. The company prohibits any facilitation payments being made in the context of any company`s business.
